Invacare® IVC™ Bariatric Bed

Yes, you can.™

Yes, you can.™

The Invacare® IVC™ Bariatric Bed is a heavy-duty full-electric bed frame designed for bariatric individuals, capable of supporting up to 600 pounds. The bed frame extends to the edges of the bed deck for better support. Using the hand pendant, the client or caregiver is able to change the positioning of the head and foot sections, as well as the bed height. And, even though this is a substantial bed, setup within the home is easy.
